

QCPLineEnding::setStyle

```
graph LR; A[QCPLineEnding::setStyle] --> B[QCPLineEnding::style]
```

A diagram showing a transition from a method call to a property access. On the left, a gray rectangular box contains the text 'QCPLineEnding::setStyle'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'QCPLineEnding::style'.
