

QCustomPlot::clearItems

```
graph LR; A[QCustomPlot::clearItems] --> B[QCustomPlot::removeItem]; B --> C[QCustomPlot::item]
```

A flowchart illustrating a sequence of three QCustomPlot methods. The first method, 'QCustomPlot::clearItems', is highlighted with a gray background. A blue arrow points from this box to the second box, 'QCustomPlot::removeItem'. Another blue arrow points from the second box to the third box, 'QCustomPlot::item'.
