

QCItemBracket::draw

```
graph LR; A[QCItemBracket::draw] --> B[QCItemBracket::mainPen];
```

A diagram showing a call from the `QCItemBracket::draw` function to the `QCItemBracket::mainPen` function. The `QCItemBracket::draw` function is represented by a white box with a black border, and the `QCItemBracket::mainPen` function is represented by a gray box with a black border. A blue arrow points from the `QCItemBracket::draw` box to the `QCItemBracket::mainPen` box.

QCItemBracket::mainPen
