

QCPFinancial::draw

QCPFinancial::selectTest

QCPFinancial::selectTestRect

QCPFinancial::getVisible
DataBounds

```
graph LR; A[QCPFinancial::draw] --> D[QCPFinancial::getVisible DataBounds]; B[QCPFinancial::selectTest] --> D; C[QCPFinancial::selectTestRect] --> D;
```

The diagram illustrates three separate method calls on the left, each represented by a white rectangular box with a black border. These boxes are arranged vertically. From the right side of each box, a blue arrow points towards a single, larger gray rectangular box on the right. This gray box contains the text 'QCPFinancial::getVisible DataBounds', which is split across two lines. The arrows indicate that all three methods on the left are calling the 'getVisible DataBounds' method on the 'QCPFinancial' object.
