

serialModel::serialModel

```
graph LR; A[serialModel::serialModel] --> B[serialModel::openPrinter  
SerialPort];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'serialModel::serialModel'. The right box is gray with a black border and contains the text 'serialModel::openPrinter' on the top line and 'SerialPort' on the bottom line.
