

QCPAbstractItem::QCPAbstractItem

```
graph LR; A[QCPAbstractItem::QCPAbstractItem] --> B[QCPAbstractItem::setClip AxisRect];
```

A diagram illustrating a function call. A light gray rectangular box on the left contains the text 'QCPAbstractItem::QCPAbstractItem'. A blue arrow points from the right side of this box to a darker gray rectangular box on the right. The darker box contains the text 'QCPAbstractItem::setClip' on the top line and 'AxisRect' on the bottom line.

QCPAbstractItem::setClip
