

QCPGrid::QCPGrid

```
graph LR; A[QCPGrid::QCPGrid] --> B[QCPGrid::setAntialiasedZeroLine]
```

The diagram illustrates a call to the `setAntialiasedZeroLine` method from the `QCPGrid` constructor. It consists of two rectangular boxes connected by a blue arrow. The left box, representing the constructor, has a white background and a black border. The right box, representing the method call, has a gray background and a black border. The arrow points from the right side of the first box to the left side of the second box.

QCPGrid::setAntialiasedZeroLine
