

QCPAxisTicker::generate

```
graph LR; A[QCPAxisTicker::generate] --> B[QCPAxisTicker::getTickStep]
```

A diagram showing a call from the `generate` method to the `getTickStep` method. The `generate` method is in a white box on the left, and the `getTickStep` method is in a gray box on the right. A blue arrow points from the `generate` box to the `getTickStep` box.

QCPAxisTicker::getTickStep
